IT Onboarding Handbook (fictional)

Section 1: Before Day One
The hiring department must submit the device request at least 3 working days before the start date.
A device request must include employee id, department, device model and expected delivery date.

Section 2: Account Provisioning
Accounts are created after the employee record is active. Production access requires a separate approval.

Section 3: Device Handover
The employee signs the device handover form. The asset owner is updated in the asset register.

Section 4: Compliance Check
All onboarding evidence is retained for audit. Draft supplier documents are not valid approval evidence.
